

Design Document

Project Description

Personal portfolio website showcasing full-stack development skills and personal interests. The goal is to create a professional and personalized platform that showcases technical expertise and personal characteristics to attract potential employers and partners.

User Personas

Technical Recruitment Manager

- 35-45 years old
- Looking for full-stack development talent
- Focus on technology stack fit and project experience

Potential Project Partners

- 25-35 years old
- Looking for technology partners
- Interested in personal interests and work style

User Stories

- As Sarah (Technical Team Lead), I want to quickly assess the candidate's tech stack to determine their fit for our full-stack development position.
- As Mike (Startup Founder), I want to understand this developer's personal interests and experience to evaluate potential project collaboration fit.
- As Lisa (Freelance Designer), I want to easily contact the site owner to discuss a design project requiring full-stack development support.
